

Soodox™ Original Pain Relief Cream

ABOUT

Soodox™ is for the temporary relief of rheumatic conditions, muscular pain and joint pain.

Soodox™ contains ingredients that may assist peripheral circulation and which have a long history of western herbal medicine for the relief of joint pain and inflammation associated with arthritis and rheumatism.

KEY ACTIVE INGREDIENTS

Arnica Flower extract to help soothe sore muscles and reduce pain and inflammation. Arnica has traditionally been used for sprains, bruises, painful swelling, injuries and wound inflammation, rheumatic, muscle and joint complaints.

Rosemary oil is traditionally topically used for myalgia, sciatica, mild analgesic and rheumatic conditions.

Eucalyptus oil is traditionally used for rheumatic complaints and athletic performance.

Juniper Berry oil is traditionally used for rheumatic pain in joints and muscles.

Emu oil is topically used for relief of sore muscles, aching joint pain or inflammation and carpal tunnel syndrome.

HOW IT WORKS

Synergistic blend of natural active ingredients work to reduce pain and increase blood circulation to the area in a formulation that enhances penetration to the area.

BENEFITS

Heat free, quickly absorbed creams that are non oily and lightly fragranced to provide temporary relief of arthritis pain, muscular and joint pain and rheumatic pain.
